

COLORADO'S MILLION SOLAR ROOFS CAMPAIGN

As of November 25, 2013, over 280 Colorado leaders, businesses, and organizations have endorsed our campaign for a million solar roofs by 2030 and have signed on to the following statement:

Endorsement Statement:

I'm proud of the progress Colorado has made on renewable energy, but we can—and must—do much more. By putting solar on homes, schools, and businesses, and providing solar power to utilities and other energy users, we would help reduce Colorado's air pollution and create local jobs.

To become a solar power leader, protect our environment, and create local jobs, Colorado should set a goal of installing the equivalent of a "million solar roofs" by 2030. Not only is this goal achievable, but it's also a critical component of creating a clean energy future and making Colorado a world-class solar state.

Local Leaders

Eva Henry, Commissioner, Adams County
Kathy Rogers, Mayor, Alamosa
Greg Gillaspie, Councilor, Alamosa
Mariann Dunne, Commissioner, Alamosa County
Jennie Fancher, Councilor, Avon
